

The ESLA Monthly

Amplifying SLT research, events & voices across Europe

April 2026

Dear colleagues and friends of ESLA,

We are delighted to bring you April's edition of The ESLA Monthly, a bulletin designed to make sure important Speech & Language Therapy news is heard well beyond national borders. In every issue you'll find three focused sections that align with what you told us you need most:

- **Calls for Research Participation**

Open studies, surveys or clinical trials looking for SLT partners, subjects or data contributors; so you can help advance evidence-based practice while raising the visibility of your own work.

- **Research Spotlight**

A succinct, plain-language summary of a fresh European study (or systematic review) with direct “what this means in clinical practice” take-aways you can use tomorrow.

- **National Congress & Events Calendar**

Dates, deadlines and contact links for upcoming congresses, workshops and webinars across ESLA's 37-country network; making it easy to share your expertise or plan your CPD travel

Calls for Participation

Are you conducting a study in the space of Speech and Language Therapy and need help from the ESLA community? Let us know and we will include your research in next month's ESLA Monthly.
